To All Yukon Amateur Radio Operators.

During the past few years the Yukon Amateur Radio Association has had a declining membership. If this decline continues the survival of the Y.A.R.A. will be questionable. The loss of the Y.A.R.A. will mean the loss of the following services:

- Representation to National Amateur Organizations.
- Amateur license plates.
- A pool of expertise provided by the membership.
- An interface with the community and general public.
- Assistance to and from Emergency Measures.
- Assistance from local businesses.
- Possible loss of the Whitehorse area repeater/autopatch system.
- Disruption to the incoming QSL service.

If the Y.A.R.A. is to survive it will require more members and a more harmonious operation. To accomplish this end it must be restructured to meet the needs of the greates number of Yukon Amateurs. Your support and assistance is required to achieve this end. You can begin by answering the following questionaire as honestly as possible. You need not identify yourself. The reverse of this page is an S.A.S.E. Please fill out, fold to letter size, tape shut and mail.

What services should the Y.A.R.A. provide its members?

What changes are required for you to become a member or for you to retain membership?

Do you reside in the Whitehorse area ( ) or outside ())? Comments on the present Y.A.R.A. structure.
